IN AND AROUND THE CLUB

Well, well, so we have another new policeman—a silent one this time. He looks like having his predecessor beat anyway.

Softball has caught on with a vengeance. Let's hope it is permanent and not like the other branches of sport in town.

Who would have thought our old friend Eddie Edwards would ever get a draw with the flashy Cowie. Eddie would make them all step if he would only be serious for a while.

Well what did you think of our first attempt at promoting sports? We received lots of congratulations, but darned little money. Oh well, we still smile.

We want right here and now to state that the management of the Midway were real sports, and took their loss in good spirit, and like our friend Andy "we are right with them."

Got introduced to Cousin's lady friend on Saturday night. She sure is a pippin tho' dumb.

Our old college chum Wee Broon paid us a visit on Saturday night, and helped the boys to a draw with Lethbridge.

Lethbridge Vets have invited us to play them anything from softball to crib on July 1st, and we are now busy finding out who wants to visit the Southern Metropolis on that date, and show our friends just what we can do. Give your name to the secretary.

This is circus day and the kids are all excited. Well there will be a good excuse to go for the sake of the kids, but did you ever notice the old folks enjoy it just as much as the youngsters.

Archie Kitto sends us a copy of the Victoria Colonist with a full account of the football game with the Welshmen. They only beat Victoria by one goal to nothing. Victoria must have a real team, but then we once had one ourselves, and some day may have another. Who knows?

The boss cut it short this week so that suits us and you, dear reader.

RATEPAYERS SAY NO!

On Monday a poll of the ratepayers of Vulcan School District, No. 1902, was held for the purpose of ratifying or rejecting a by-law empowering the Board of Trustees of the district to issue debentures in the sum of $30,000.00 for the purpose of building an addition to the present school. This was defeated by 45 to 42.

On the same day a vote was taken to ratify or reject the teaching of grade twelve in the said school. This was also negatived, by 49 to 37, with one spoiled ballot.

Mrs. H. Daines and daughter, Miss Queenie, spent a few days in Calgary last week.

VULCAN MASONS AT DIVINE SERVICE

On Sunday, June 23rd, the Vulcan Lodge of the Masonic Order attended St. Aldhelm's Church to commemorate the Nativity of St. John the Baptist. A large number were present and Rev. D. F. Kemp preached from the text "And many shall rejoice at His Birth" dividing the subject into four main division: (1) The Birth; (2) The Life; (3) The Message; (4) The Death of St. John, and tracing the vein of peculiarity running through each phase. Mr. Kemp closed his address by commenting upon the fact that St. John in his short life of some thirty-two years, had fulfilled his mission with an unselfish zeal and a constancy of purpose which could well be emulated in this present day and age.

WEDDING BELLS

A very pretty and quiet wedding was solemnized at the home of the bride's sister, Mrs. Arthur Cummings of Nanton, on Thursday afternoon, June 20th, by Rev. Locke, when Ella Alberta Hoge, third daughter of Mr. and Mrs. Hoge of Granum, became the wife of William Bernard Upton of Nanton.

The bride, who was given away by her father, was charmingly dressed in a gown of shell pink georgette and lace, and carried a beautiful bouquet of Ophelia roses. The bridesmaid, Miss Ruby Hoge, sister of the bride, wore a beautiful dress of powder blue canton crepe.

The groom's gift to the bride was a lovely brown fox fur and to bridesmaid, a flexible gold bracelet, set with stones, and to the groomsman, who was Mr. Roy Hallet of Nanton, a pair of gold cuff links. The bride's gift to the groom was a ring set with stone engraved with the Oddfellows' emblem.

Mr. and Mrs. Upton were the recipients of many beautiful and useful gifts.

After the ceremony the guests, who were just immediate friends and relatives, sat down to a delicious wedding dinner served by the hostess, Mrs. Cummings, assisted by Mrs. Sheffield of Vulcan.

The bride's travelling dress was a cocoa brown silk ensemble with hat and shoes to match. Mid showers of confetti, the happy couple left for a brief honeymoon trip to the mountain resorts and upon their return will make their home in Nanton.

Mr. and Mrs. Upton will be at home to their many friends after July 7th.

ATHLETIC ASSOCIATION IS NOT RESPONSIBLE

Vulcan Athletic Association desires that the public understand that the basball games played here last week, for cash prizes, were not promoted or carried out under the auspices of the association, which will strive to encourage pure amateur sport only.

OBITUARY

George W. Willard

The death of George W. Willard occurred at the home of Mr. and Mrs. Henry Willard, Queenstown, on Monday, June 17th. Mr. Willard who had reached the age of 76 years and 11 months, was taken ill with a paralytic stroke about a week previously and though he retained consciousness until the end he did not rally and passed away quietly early Monday morning. Mr. Willard came to Alberta, taking up a homestead in the Nanton district about 28 years ago. From there he moved to the Red Deer district. Now for the past 18 years he has made his home with his son Henry and Mrs. Willard near Queenstown. The immediate relatives are two brothers: William of Eugene, Oregon, and Frank of Louisianna; two sisters, Mrs Claypool of Mena, Arkansas, and Mrs Hickman of San Jose, Cal.; two daughters, Mrs. Randall of Exeter, Cal., and Miss Maud Willard of San Francisco; and one son, Henry of the Willard school district. There are three grandchildren in California and four grandsons here with whom he has lived now for many years. Mrs. Gooch of this district is a granddaughter.

Rev. C. G. Hockin conducted the services at the home and at the grave on Wednesday morning, June 19th. Interment was made in the Marquiss Municipal cemtery.

Mr. and Mrs. Willard and family, wish to thank the friends who so kindly helped them during the sickness and with the funeral arrangements and also those who sent flowers.

Mr. Carson Field of Vulcan and Mr. and Mrs. Carl Field of Calgary, motored to Lethbridge on Saturday afternoon to spend a few days with relatives there.

Vulcan Veterans' Club Presents Fine Program

Horse Racing, Baseball, Football and Basketball are all of High Order, Midway an Attraction, Jitney Dance Well Patronized, Crowd is Disappointing

The committee entrusted with arrangements for the big sports meeting on Friday and Saturday of last week is to be congratulated on putting on an excellent program in a most capable manner, the varied events passing off without a hitch. All worked hard for sucess and those present had a most enjoyable time; the only regret is that a greater number did not show appreciation of the Legion's enterprize by their presence on a real sports occasion.

Below will be found brief reports of the happenings of the two days:

RACING

Horse racing on both days was of a high order and is commended by Mr. L.A. Douglass who was in charge of the various events. Specially mentioned is Kipling, who riding Mr. Douglass' team in the Roman race, gave a fine exhibition of horsemanship.

Results of the various races are printed below:

June 21st—Free for All

1. F. Moran's (Nanton) "Carpathian."
2. F. Moran's "Dixie."
3. Three Sons (Gleichen) "Sandy."

Relay Race

1. L. A. Douglass (Vulcan) "Star of the Jungle" and "Wrangler."
2. Jimmy Dew (Vulcan) "Bull Pup and "Pearl"
3. Three Sons.

Cowboy Race

1. Jimmy Dew.
2. Three Sons.
3. L. A. Douglass.

June 22nd—Free for All

Same winners as on June 21st.

Relay Race

Same winners as on June 21st.

Cowboy Race

1 and 2. Jimmy Dew

3. Three Sons.

Roman Race

1. L. A. Douglass
2. Three Sons.

BASEBALL

Some good ball was witnessed during the two days' meeting, and the following is a brief outline of the play: Friday, Vulcan met Carmangay and succeeded in getting the best end of a 13-11 score. There was a lot of hard hitting in this game and Reish, Vulcan's centre fielder, made a wonderful running catch of a swift ball, which got for him a good hand from the spectators. The batteries were: Vulcan—Lucas and Hess; Carmangay—Foss and Walker.

In the evening Blackie met Lomond and the game resulted in a win for the former by 10 to 4. Lomond battery consisted of Siler and Walker and that of Blackie was Crote and McGoldrick.

On Saturday Blackie was victorious over Vulcan and thus won the tournament by 11 to 6 after a hard hitting game. The Blackie battery was Speer and Jenkins, while Vulcan had Kilem Aldred and Hess.

Gerding was the satisfactory umpire for all games.

BASKETBALL

Vulcan was defeated by the Lethbridge Aces in a very fast and interesting game. The visitors, by playing a superior brand of ball, beat the home boys 53-15. Those who did not see this game missed the fastest and cleanest exhibition of the year.

The Vulcan line-up was as follows: Clark and McAskile, forward; Johnston, centre; Currie and Thomas, guard.

FOOTBALL

The game between Vulcan and Galt United, Lethbridge, commenced at 7:15 on Saturday with a good crowd in attendance. Vulcan lost the toss, and had to kick against the wind. The United boys started off with a bang, but found the local defence in dandy form. Vulcan settled down to do their stuff although the wind was pretty hard against them. With a pass from Alex, Andy sent home a dandy which gave the United goalkeeper no chance whatever. The visitors did not like the way things were going, and, after twenty minutes, equalized. The ball struck the bar and rebounded off the post over the line. Just before half time it commenced to rain, and during the last few minutes of this period Vulcan was playing a good game.

Half-time score: Vulcan 1; United 1.

Rain continued in the second half, but Vulcan went off with a rush, and it looked as if they were going to show the United something, but the visitors were putting up a good defence. The rain made the ball difficult to control and many slips were made on both sides. After 15 minutes, Andy was pulled down in the penalty area. P. Wilson took the spot kick and gave the United goalkeeper no chance to save. After a mix-up the United equalized, there was some doubt about this goal. The teams were pretty even all through, both defences being in good shape.

Outstanding players for Vulcan were Wilson, Alex and Andy Hetherington, McKinnon, Heddle and Thorpe

Final result: Vulcan 2; Galt United 2.

Goal scorers for Vulcan: Andy Hetherington and P. Wilson.

Referee: Colin McInnes.

Vulcan—M. McInnes, F. McKinnon, B. Heddle, H. Beeching, E. Thorpe, Andy Hetherington, Alex. Hetherington, Fred Hetherington.

SOFTBALL LEAGUE IS INAUGURATED

The first softball game at Vulcan, last Thursday, was a big success. The Town Fathers and the Oil Magnates being the opposing teams. Judge Maber pitched a snappy game for Oilers. The Fathers tried out several husky hurlers but the Oilers shake a wicked stick.

The Magnates had a merry-go-round for a few innings, when the Fathers showed their mettle and scored repeatedly in the last inning.

Score 11-22 in favor of Oilers.

As a result of the above game quite a lot of enthusiasm was manifested, and a league was formed.

The first league game was played Monday, when, after a good game (with lots of fun interspersed), the Bricklayers (A.F. & A.M.) trimmed the Oil Magnates 19-7.

On account of the visit of the circus there was no game on Tuesday but Wednesday's play resulted as follows: Legion beat Pettman's Sharks; Bankers beat Elevators; Mechanics beat the Town Fathers.

This evening the Printer's Devil's (Advocate) play the Bear Cats, and in this, as in the many following games, much good fun is anticipated.

CHURCH OF CHRIST NEWS

Sunday, June 30 there will be services as usual at the church of Christ Sunday school at 11:30. The last C.E. service for the summer will be held. All members are requested to be present. Evening service at 8 o'clock. Sunday school picnic on Saturday, June 29, at the Little Bow. All members and friends are invited.

NOTES CONCERNING WOMEN'S INSTITUTE

Last Thursday, the Vulcan branch had a very informal "At Home" before disbanding for the summer months. Each member was to bring a friend and also some article to be auctioned off. The meeting opened with "O Canada," with Miss B. Walker at the piano; Mrs. A. T. Martin acted as auctioneer, and everybody seemed to enjoy themselves. There were lots of pretty things as well as home-cooking aprons, bon-bon dishes, towels, pillow tops, etc., besides pickles, fresh eggs, cream, cakes, etc., and after these were disposed of, everyone sat down to afternoon tea. The treasury was augmented by quite a few dollars.

The Carmangay branch put on an oratorical contest not long ago, and asked Mr. Harry Nelson to act as one of the judges, knowing that he always takes a keen interest in things like that. They much regret that Mr. Nelson's health did not admit of this being carried out.

The Vulcan branch has accepted an invitation from the Good Deeds branch to a social afternoon at the Alston community hall on Wednesday June 26.

UNITED CHURCH NOTES

Rev. J. N. Brunton will conduct the regular services in Vulcan, Sunday morning and evening also at Mayview at 2 and Red Cross at 3:30 p.m. Communion and baptismal service will be held in Vulcan in the morning at 11 o'clock. Tverybody welcome.

We wonder how long this softball craze is going to last.

A Sound Business Proposition

Wise farmers consider hail insurance just as necessary an item in the expense of growing a crop, as seed.

The past few years have proven that hail is a very destructive element, and that no district is immune.

Insurance Records Show that one Hail Policy out of every four resulted in a Claim in Alberta in 1927

Storms come without warning and leave destruction behind.

Hail Insurance is the only solution-Don't delay

OUR DOMINION DAY

Sixty-two years ago on July 1 the Fathers of the Confederation placed their seal upon the final act which founded the great Dominion of Canada. Although in 1867 Canada was almost entirely centred in four eastern provinces, yet the first great statesmen of the Dominion laid the foundation for future expansion wisely and well. Did they envision that great new Empire which would spring to life from the prairies? Did they foresee the far Pacific Coast as a teeming centre, rivaling the Atlantic in world-wide commerce? Did they catch the whir of the great airships which would penetrate the farthest reaches of the then unknown territory?

Within sixty-years—less than the span of a man's life—a great new Canada has been born, out of that first Confederation. From coast to coast, vast industries flourish; undreamed of wealth lies beneath the soil; yearly, field, forest and stream offer up rich harvests for the feeding of millions.

And on July 1 we celebrate that day which is distinctly and distinctive ly a Dominion day—the greatest day in the History of Canada.

For sixty-two years, our statesmen have striven to follow the example of those first great Fathers. Thoughtfully and wisely they have sought to lead the country to future greatness. All have been men of sterling character and foresight. They have builded wisely.

It remains for the citizens of Canada to maintain the example set by the leaders, and to found their lives, not only upon the gaining of material wealth, but upon character and ideals.

THEY DO GET BETTER

An advertisement called from a Review of Reviews of 1899 vintage, regarding automobiles, reads:

"The latest and best horseless carriage combines all requirements for an ideal and practical pleasure or bus iness vehicle. No better will be made. Time cannot improve it, $600. Send for interesting reading matter on self propelled vehicles."

That was thirty years ago, and time has improved them. It is not wise to forecast too surely.

DRIVERS' LICENSES

A resolution is being presented to the Legislature from a local organization, asking that all back-seat drivers be made to carry special licenses. All infractions of the law, to be heavily prosecuted.

One of the questions asked on the application for driver's license is "Age?" Women are supposed to be truthful about this. Another is "Weight?" Ladies on a starvation diet will also be expected to ascertain this before filling out the application blank.

Painters are very busy, but they have much to do in town and country for many buildings are crying out loud for a coat of point.

GOOD BYE TEACHER

School is over. For two months, the teachers may dismiss from their minds oppressive thoughts of discipline, punctuality, time tables and morale. They can gaze upon the children that clutter the landscape, with serene detachment and with absolute indifference as to whether or not any one of them knows that two and two make four.

Mothers too, can enjoy the relaxation of holiday time. Meal hours no longer need be tied to schedule, but can be shifted to and fro with beautiful elasticity. No last minute frantic hunting of caps, because there is actually no last minute. The incessant demands cease for a time, and every one draws easier breath.

For two months, no juvenile ears will be outraged with the distres sing cry "Have you got your homework done?" No home work, no grammar, nor 'rithmetic. Joy!

All this week, cheerful processions of school children have ambled along the streets, packing home their huge cargoes of books, which will be stuffed into obscure and darkest corners.

A visitor from Mars, gazing upon the youth of our town, would be great ly impressed with the weight and wealth of books which they carry to and from their schools. A pound of boy to a pound of book would be the visitor's estimate. And he would mar vel at the immensity of learning which must be compressed into each small head.

Those more familiar with these young students realize however, that the barrage of books is merely camouflage. Most of the knowledge is still tightly sealed between the covers of the books. And what little has been transferred from book to bean, will be pretty well scattered during the next two monhs.

WOMEN'S WORK HOURS

While trade unions are all working steadily for shorter working hours and five day weeks, there still remain a class of laborer who works an average of sixty-one hours a week. These are housewives, who have not yet formed a union.

A study was made of 2,000 housekeepers, including those from city, town and country, and their average number of working hours. As might be expected, the women of the country work longest hours, town women not so long and city women shortest of all. But even at that the city women on an average devote more than 48 hours a week to housekeeping.

The nature of housewives' work makes it impossible for them to check in and check out on scheduled hours. Absolute freedom from duty is unknown in their business.

For that reason, every possible device for lessening drudgery, should be furnished a home if possible. At its best, the housekeeper has those long demanding hours and each new item of labor saving equipment gives her merely what she thoroughly deserves.

"Young man, go in debt." This somewhat strange advice is offered to young men anxious to get ahead in the world, by Louis F. Swift, head of the world's largest meat-packing business. "If the debt is for something of intrinsic value, it is worth while," he says. "As soon as one thing is paid for buy something else and get in debt again. Stay in debt and never get out. Just as long as the debt is not for clothes or drinks or such things, but is for something of real, tangible value, a house or a bond, for example, it is worth saving for. "Save—save something, no matter how little. Get one hundred dollars in hand, get one thousand dollars—you will find the second hundred or second thousand will come much more easily than the first did. The start is the thing!"

EDITORIAL COMMENTS

Pope Pius has rare courage. He criticized Mussolini recently.

How many motorists are there who have not exceeded the speed limit on a clear stretch of road? In some countries there is no arbitrary limit and patrols are maintained merely to prevent reckless or inefficient driving. That's what's coming in Canada, too.

Canada's fiscal year ends on March 31st, but, for purposes of income tax, Canada makes December 31st the end of the fiscal year for individuals and business corporations. Some one in parliament was curious enough to ask why the fiscal year in Canada and its several provinces should not be the calendar year, and the question is to become an item in the agenda of a conference.

United States newspapers never knew what was meant by "a quiet wedding" until Lindbergh showed them.

The birthday congratulations of President Hoover to King George V were couched in friendly terms and the King's thanks were heartfelt. If trouble arises between these two nations it will not come from the heads.

Speaking of the power of the press, where and how was it shown during the recent election campaign in Britain? Only one London daily, the Herald, supported McDonald, and it was once tainted with Moscow money.

Ever since the war, it is the government of the day that is handicapped in an election. Ramsay McDonald has found this out already and will probably find it out again.

Party lines have been rent asunder, to the detriment of the party that happened to be in power during the war. In Britain it was a Liberal government followed by a coalition. In Canada a Conservative government followed by a coalition. In the United States a Democratic government. These parties have not since come back to stay for any length of time.

A medical man setting forth the danger of locking the door while taking a bath mentions sixteen different accidents which may befal you there. The safe plan is to sing, and leave the door unlocked.

A woman in Chicago applied for divorce on the ground that her husband was "too thrifty." The decree was not granted, the evidence showing that she knew at the time of her marriage that he was Scotch.

Whether he is responsible for it, or not,, Premier Gardiner is being blamed for the defeat of his government in Saskatchewan. Some of the seeds were sown, however, before he became leader.

Speaking of the result in Saskatchewan, High River man says he never knew a machine to work properly when the gearing was cluttered with monkey wrenches.

Why don't people bet on the unexpected whenever it is so frequently the thing that happens?

Ramsay McDonald picked up one of Lloyd George's members and took him into the Cabinet, thus reducing the balance of power which the Welshman hoped to exercise.

When a man newly elected as a Liberal takes a portfolio in a Labor Cabinet, there seems good reason why he should be obliged to get the consent of his electors.

Several hundred years ago, certain kings of England quarrelled with parliament. Two parties arose, the Court party and the Country party. The King used to win over members of the country party by giving them places of enrolment under the Crown. Parliament at last passed an Act to provide that such persons should have to secure re-election in their constituencies. Such an act should not be repealed or amended until we are sure that the conditions which brought it about, no longer exist.

Crop prospects in Western Canada were considerably enhanced by generous rainfall in practically all districts during the last days in May, especially in Manitoba and Saskatchewan, where it was more generally required than in Alberta, according to the weekly crop report of the agricultural department of the Canadian Pacific Railway.

A new aviation service in Southern Alberta is announced. This is called the Rutledge Air Service Ltd., with Lieut. Rutledge as director and chief instructor. It is proposed to commence activities in Medicine Hat, Taber, Cranbrook and Drumheller.

CALL OF THE TRAIL

The wanderlust is upon the land. Cars flit north, cars flit south, meeting and passing like ships in the night. Everyone is seeking adventure.

The roads that lure to the far horizon's wall, are great equalizers of mankind. No one class has any monopoly of scenery or of air. The tourists in the Rolls-Royce can see no more keenly, nor breathe more deeply than those in the trundling little lizzies. Indeed it is often doubtful if the super tourists experience half as keen enjoyment, as those who have saved and scrambled in order to gather the wherewithal for a cheap, hazardous little flight. The faces of travellers are testimony of their capacity for enjoyment, and where does one most frequently see bored faces? Perfectly true. The great high powered automobiles catapult from point to point, whizzing scornfully past the humbler cars which are ambling cheerfully but erratically along their carefree way. And really the little fellows seem to be having the fun.

It is not be argued of course, that a battered old open work car, is the prime essential for a successful motor trip. But it would be a satisfaction if some one could explain why the people in the little cars are the ones who seem to retain the greatest capacity for enjoyment and who swing most easily into the spirit of the open trail. They appear to be the true philosophers of the road.

THE GOOD AND THE CLEVER

If the good were only clever,
And the clever were only good,
The world would be better than ever
We thought it possibly could:
But oh! it is seldom or never
That things happen just as they should;
The good are so harsh to the clever,
The clever so rude to the good!

Prince Henry has cancelled his visit to Calgary and the E.P. His fractured collar bone, sustained at polo two weeks ago, has laid him up and interfered with a series of side trips which he had planned to make through Alberta and B. C. He is returning to London after completing an official mission to Japan. Prince Henry has shown great adaptability in missions of diplomacy and state.

Vulcan Herald
Published in the interests of the People of Vulcan and the Farms and the Farmers of the District.
J. T. WILLARD, Editor.

A MITE BETTER

There is a better way to kill the mites in the house than spraying sulphur. Mix half and half—kerosene and old crank case oil, then add about 10% good sheep dip. Spray this mixture into all cracks, corners, joints, nests, and roosts, and you'll get rid of your hen-house mites in a hurry.

DO'NT FORGET

Remember the big U. F. A. sports day and picnic at Lake McGregor on Wednesday, July 3rd. Yes, we'll be there with bells on.

One idea that girls will have to get rid of is that a smile is equivalent to a tip in a barber shop.

For summer-fallow you can find nothing better or faster than the McCormick-Deering rod weeder. It sweeps everything in its path and cuts 13 feet.

Subscriber: "Is this a toll operator."

Telephone girl: "Yes sir."

Sub: "Then toll will you—my lines dead."

OUR AIM

It is our aim to keep our local service worthy of the McCormick - Deering line which we represnt. Courtesy and attention to detail shall be our watch word.

A SUGGESTION

If the roofs of your buildings (or any one of them) is of sheet steel or galvinized iron, you can make them practice immune from lightning damage by merely installing at each corner a regular rod of copper wire, thus grounding the entire roof.

Most people like to get all they can for their money. We do to. In this case we can give you the most Tractor for the least money—22 h.p. on the draw bar and 36 h. p. on the belt. It has all the latest improvements, and is a real 4 plow tractor. The price is only $1375.00. Come in and see the new McCormick - Deering.

We would say that the man recently convicted of having married three different women was formerly a master of ceremonies for a three-ring circus.

He was only a blacksmiths son and he forged ahead.

WE WILL FEED THEM

Signor Mussolini has added new measures to the pressure he has already brought to bear upon Italian parents to produce more children.

How does he propose to feed this increased population? All over Europe population has outrun subsistence Half the women and children of that continent have never had enough to eat nor enough to wear.

European countries, like Italy, that are increasing their population rapidly, have for the past generation depended upon the food production of lightly populated countries such as Canada and United States.

But what will happen when population begins to outrun subsistence in United States?

United States has doubled her population in the past 40 years.

If that population doubles again in the next 40 years, as is reasonable to expect, there will be 240,000,000 people in that country to be fed and clothed.

Achievement of that population figure will inevitably create a class that will know hunger. United States will begin to look for food.

And the only place towards which United States can look for food is Canada.

Canada's lack of a great population has been regarded as a calamity. It may be a blessing. Canada can affor to sit tight, keep her breed pure and her herd small and wait.

ITEMS OF INTEREST

An additional 2,500,000 bushels is about to be added to the Vancouver port's grain capacity as a result of the decision of the Alberta Wheat Pool board of directors awarding the contract for such an addition to pool elevator No. 1 at a cost of $675,000. This addition, added to two previous extensions to the port's grain handling facilities, will bring the storage capacity up to more than 14,000,000 bushels. The harbor also plans to add some 7,500,000 bushel storage to its own elevators numbers 1, 2 and 3.

Roger Babson in the Forum comes forward with "twenty ways to make a million." He suggests various inventions which are badly needed, by which some inventor may be enriched. Here are some: (1) One is a new automobile with a rotary engine which will permit it to go sideways as well as forward and back and will be gear less; (2) Another is a Diesel engine for automobiles, so that crude oil may be used for motor cars; (3) A light that will pierce fog. Fog is the bugbear of aviators; (4) A device by which airplanes may rise vertically and descend, instead of using great landing stations. This is for the time when an airplane is parked in every yard; (5) Gliders as toys for children so they may float round their back yards; (6) Transmitting electricity over long distances without loss of current, generating electricity in some central power plant and doing away with individual heating plants.

MUST FIGHT WEEDS

It cannot be too strongly emphasized the necessity for all farmers to organize to combat the noxious weed menace. Crop-devastating weeds are spreading rapidly over this country, spanning great stretches of our finest farm lands. It is advancing day by day in many ways, and much of it is being sown by farmers with their seed grain. Thousands of acres of good farm land has been ruined in Manitoba and Saskatchewan and Alberta is rapidly becoming weed infested.

Community spirit is required to get behind the eradication of weeds which are menacng the whole spring wheat area of this continent and although the farmer is going to be first one to suffer, it won't be long before the business man's turns comes.

Sow thistle and quack grass, deadly weeds which were scarcely known in Western Canada twenty years ago, are spreading and today there is no farming district in Western Canada not menaced by these weeds, which have already caused such ruin in Manitoba and Saskatchewan.

If Alberta's weed laws were enforced, Alberta farmers would never be bothered to any serious degree with weeds. In the other prairie provinces it would be impossible to enforce the weed laws.

With various factors contributing to the world's surplus supply of wheat and with Russia planning to bring its wheat production ahead of even pre-war days and to sell at low figures, there is only one course open to the farmer of Western Canada. In order to compete with other countries of the world he must produce his wheat at less cost.

Weeds are costing the spring wheat farmers of the three prairie provinces of Canada and the four states of Minnesota, South Dakota, North Dakota and Montana, $200,000,000 a year, about equally divided between Canada and the United States, an average of nearly seventeen per cent. It represents a largely avoidable loss that industry in the world cannot afford to sustain.

Farmers need more education about weeds and how to get rid of them. There are more of the best publications on weeds printed in Canada than to any other place in the world. Number 3 bulletin of Alberta's weed laws was one of the finest illustrated books ever published on the subject.

ROOM FOR ALL

"Should not the homeborn be given equal chance with the alien?" This is the disturbing question that comes into the mind when immigration is discussed.

The alien has become an object of great solicitude. Everything possible is done to get him here. He is assisted to a farm and arrangements made to simplify his start in the country.

This is all commendable enough. But give a thought to the native born sons of our own farmers who with the same amount of interest and assistance, might become enduring producers, with a natural love of their native heath.

There are the boys of large families. Consider that there may be from two to six boys in these large families. Born on the farm, their love of the soil is instinctive. They learn in childhood the care of animals, the crops to be grown and how to grow them.

Yet the small farm cannot support this large family. Some of these boys must be turned off to fend for themselves. They drift into work which is foreign to them, often landing odd jobs in the cities where they are uprooted and dissatisfied. Love of the soil is in their blood and familiarity with land problems, is there from infancy.

Why not work out a scheme whereby these natural farmers may be assisted to the same extent as alien born. There is room for all—the native born and the alien. There should be equal opportunity. Why not give the home boys a chance.

The Alberta Livestock Pool now has 16,000 members, so A. B. Claypool, M. L.A., states. The pool comprises 38 associations, scattered throughout the province.

IT ALL EVENS UP

Women, keeping slim by abstaining from starches and living on two meals a day, complicate the wheat farmer's problem, remarks a Canadian National Railways official. That is unfortunate, at the moment, for the farmers, but fortunate for the human race, since men follow the examples set by women. Ultimately all will gain.

Textile interests not so long ago were up against the same problem. Women, reducing their once voluminous clothing and adopting light, healthy garb, automatically cut the demand for wool and cotton in two. By turning to silks, they reduced it still further. Demanding floors they could keep free of dust, they swished out the old-fashioned, nailed-down carpet. And so on.

But they made up for quantity with variety. Clothes manufacturers concentrated on styles and offset their losses. Silk worms lost their monopolies and factories began to do their work. Flooring manufacturers made similar gains. Cosmetic producers, shoe factories, milliners, jewelers, all benefitted.

Now it comes to wheat. But to eat less food and better combinations means longer life. By living longer, people will consume as much as before, only they will take more years to do it. Meanwhile they will contribute their part to the demand for all commodities, including other forms of food.

The world keeps its balance. A loss here means a gain there. And somehow or other the race finds itself better dressed, better fed, longer lived and generally better off than ever before. That includes the farmers.

Being a gentleman is its own reward.

THE FORD CAR SIX-BRAKE SYSTEM

Grips with Silent Power

THE greatest safety feature on any automobile—the braking system—has been developed on the Ford car to a degree that insures absolute driving confidence. Being fully enclosed, the internal expanding brakes on all four wheels are free from any danger of impaired performance from mud, sand, road dirt, grease or other foreign matter entering the mechanism or between the bands and drum.

The four wheel system is operated by a foot pedal, while the emergency or parking system of two brakes, one on each rear wheel, is distinct and separate, operated by a hand lever. This added security is made possible through the unique design of the Ford steel spoke wheels to which drums are fitted to accommodate two sets of internal brakes on the rear wheels.

The smooth, even braking of the Ford car yields more advantages than maximum safety at all times, since it makes tires last longer and adds immeasurably to riding ease and driving comfort.

Ford

Drive it Yourself—there is no Better Test

KIRKCALDY NEWS

Mrs. Laing spent a few days last week with her daughter in Lethbridge

Mr. and Mrs. A. Roebuck motored to Calgary on Friday last.

Miss Emily House of Gleichen is spending a few days at the home of her sister, Mrs. Olson.

Mr. Taylor is visiting with his daughter, Mrs. Laing.

Mr. and Mrs. Wright of Nanton, spent Sunday at the home of Mr. and Mrs. J. Fox.

Mr. Baldwin spent week end in Lethbridge with his son, Jimmy.

Mr. and Mrs. Meyers, Mr. and Mrs. Boose, Miss Rinehart, Miss McFall and Mr. Colwell motored to High River on Sunday spending the day with Mr. and Mrs. Gassett.

Mr. and Mrs. H. Dunbar and family have left for Grande Prairie where they will spend a few weeks with their daughter.

On July 7th evening service will be held at the hall at 7:30 p.m.

Mr. George Shaw of Carstairs, was a visitor over the week end.

Mr. Myla Swanson of Edmonton, was a visitor at his sister's, Mrs. Brown, one day last week.

A very pleasant and enjoyable lunch hour was spent at the Kirkcaldy school on Friday, June 21st. A farewell dinner was given to the children as it was the last day of school for most of them. It was quite a delightful lunch hour because each child had the privilege of inviting his or her mother. Mrs. A. J. Maisey and Miss McFall served baked beans, sandwiches and cake, after which books were packed and the children left for their homes.

ST. ALDHELM'S CHURCH

St. Aldhelm's Church, Sunday, June 30th. Sunday school 10 a.m.; Holy Communion 11 a.m.; Evensong 7:30 p.m. There will be a service at Union Jack school at 3 p.m.

VULCAN WINS

Vulcan players paid a friendly visit to the Claresholm tennis club last week. The close of the tournament found the visitors with most of the wins. The high wind made playing difficult. Refreshments were served by the local club and the secretary, W. G. Brooks-Avey, handled the games with smoothness and efficiency

Gum should first be scraped with a dull knife. Then the spot should be sponged with gasoline or benzine.

ENSIGN NEWS

Work has been started on construction of a new house by Mr. J. Williams.

Mr. and Mrs. Geo. Marshall motored to Cluny, Monday to attend the French Catholic celebration.

Miss I. Cooper, teacher of Derry school has resigned and left for Calgary, Friday.

Bible studies were held at Mrs. L. Chapman, Tuesday evening. Rev. J. J. Farquhar conducting the meeting, and interesting discussions were held Next meeting at Mr. A. Ruark's. Everybody welcome.

The C. W. League held their regular Thursday meeting at the home of Miss A. McDonald at Blackie. There was a good attendance. Father Bowlen, Father Green and three lady visitors from Calgary present. The meeting opened by the president, Mrs. H. Brown. Father Green gave an address on the C. W. League. It was decided to hold the bazaar on the 9th of November; also to purchase tickets for "Hope Chest" and arrangements were made for the picnic for the church members and families which will be held at High River June 30th. Next meeting to be held at Ensign at Mrs. L. E. Tlston's in August.

Mrs. E. Loxton returned home from the hospital Tuesday last and is looking as well as can be expected and is now visiting at the home of her sister Mrs. L. Jackson.

The conference for Little Bow constiuency, W. I. is to be held at Vulcan on Friday, August 23rd.

GREAT MAN DIES

The death of Hon. W. S. Fielding on Sunday, June 23, robs Canada of one of her most distinguished statesmen. Mr. Fielding was eighty-one years of age and for the last five years has been an invalid. Of his eighty years, forty of them had been spent in honorable service to Canada. Twelve years were spent in the provincial political arena of Nova Scotia and twenty-eight in the Federal House.

Mr. Fielding was one of those persons, rare in public life, who though having strong party convictions, possessed the confidence and admiration of his political opponents.

For fifteen consecutive years he was Minister of Finance, and many achievements in trade relationships are placed to his credit. In 1917 when the Union Government was formed, Mr. Fielding broke from his allegiance, to Sir Wilfred Laurier, in order to support conscription. This possibly cost him the mantle of Sir Wilfred which fell upon McKenzie King. But his influence has been at all times steadfast and secure at the seat of government.

He left public life five years ago, as he had entered it, a poor man. No rich monetary reward had fallen to him, only the riches of an honorable, self-sacrificing service to his country.

The nation however, following his retirement, voted him a pension of $10,000 per annum, which is recorded as one vote at least to which no opposing voice was raised.

In the death of Mr. Fielding, Canada loses a fine parliamentarian, a skilful statesman and a trustworthy citizen.

INTERESTING NEWS

Albert Weston of Turner Valley, aged 27, employed at Royalite No. 6 was killed instantly on Monday evening when pipe tongs fell, crushing his skull. Mr. Weston is a native of Alexandra, Manitoba, and his people live there.

Crop conditions in the Peace River district are reported to be favorable, and the growth is said to be fully a week or ten days ahead of the central portion of the province. It is estimated that there is an increase of 25 per cent. in the acreage in this district.

Canada is still the largest buyer of her own bond issues, according to the weekly summary of A. E. Ames & Company. This shows purchases by the Dominion of $131,551,721 as compared with the United States' absorption of $67,687,000, and the United Kingdom's takings of $14,959,000—the whole making up a total of $211,197,721, for the first five months of the year. This compares with $210,285,660 for the similar period of 1928, and $202,295,864 for that of 1927.

THIGH HILL W. I.

The Thigh Hill W. I. met at the home of Mrs. Gordon Underwood on Wednesday, June 19th. Roll Call was answered with Recipes for hot supper dishes. The talent money was collected, and each person was asked to tell how it had been earned. Mrs. Underwood gave a splennid report of the convention held at Edmonton. A word guessing contest conducted by Mrs. Hemingway caused lots of amusement. A dainty lunch was served by the hostess. The next meeting will be held July 18th, at Mrs. Hemingway's.

OBITUARY

Edward James Fleming

Mr. E. J. Fleming of Ohaton, Alberta passed away in Calgary on Saturday, June 22nd, aged 27, the cause of death being bronchial pneumonia. He was a nephew of Mr. E. B. McCullogh, Vulcan, and was much esteemed by his associates.

The funeral took place in Ohaton on Monday at 2 p.m.

Mr. C. Statta has left The Duncan Motors and has accepted a position at Black Diamond.

The Free Methodist Church will hold their annual camp meeting at Armada U.F.A. hall, June 27th to July 7th. Everybody welcome. Rev. E. C. Madsen, pastor.

NOTICE TO CREDITORS AND CLAIMANTS

An Invitation

We Invite You to Come in and See Our Two New Stores

Our Dry Goods Store on the old site has been thoroughly modernized. New features and fittings, more room and light, goods can be properly displayed, and we can render better service to our largely increasing clientele. Our Men's Department has been moved across the street to the store formerly occupied by Mr. King Druggist. The store has been re-decorated and brought thoroughly up to date, and will be found in every respect to be a real Gent's Furnishing Store, and will in future be styled

"The Men's Shop"

A FURTHER INVITATION

RUGGED!

Thru and thru our Tires go the strength of the cable-like carcass sinnews; the tough, rugged road qualities of highest grade rubber. No mere surface quality. Deep, stalwart integrity alone can give the miles and months of service that are promised by us, and delivered by the tires we sell.
